Dear Toyota Prius Owner:

At Toyota, we are dedicated to providing vehicles of outstanding quality and value. As part of our continual efforts to ensure customer satisfaction, Toyota would like to advise you of an enhancement to portions of your Toyota Prius New Vehicle Limited Warranty related to the hybrid system Intelligent Power Module (IPM), located inside the inverter assembly. This Warranty Enhancement covers failure of the IPM and other internal inverter components potentially damaged by IPM failure. This condition is indicated by hybrid system diagnostic trouble codes (DTCs): P0A94, P324E, P3004, and/or P0A1A that your dealer can find by use of a special diagnostic tool. If one or more of these DTCs are detected, various warning lamps on the instrument panel will also illuminate and the vehicle will enter fail safe mode.

Please Note: The warning lights and stored hybrid system DTCs can be triggered due to conditions detected not specific to the inverter assembly and its internal components. These additional conditions may require diagnosis or repairs not specifically covered by this Warranty Enhancement. Please be aware that if the condition is not covered by this warranty enhancement, you may be responsible for the initial diagnostic fees and any other repairs you may decide to have performed. Any authorized Toyota Dealership can determine if a condition is covered by this Warranty Enhancement.

While the majority of vehicles will not experience failure of the IPM, we are offering the following New Vehicle Warranty Extension to assure you that we stand behind our product.

What should you do?

Please apply the sticker below to your Owner's Warranty & Maintenance Guide booklet for future reference. If you have not experienced illumination of various system related warning lamps, there is no action necessary at this time.

1Please refer to owner FAQ for warning lamps related to these conditions.
Warranty Enhancement Program Details

This Warranty Enhancement Program provides an extension to the vehicle’s “New Vehicle Limited Warranty” for repairs related to certain internal malfunctions of Intelligent Power Module (IPM). The vehicles covered under this Warranty Enhancement must first have Safety Recall EOE performed (if applicable). If the condition is verified, an appropriate remedy will be performed under the terms of this Warranty Enhancement Program.

This warranty enhancement provides coverage for 15 years with no mileage limitation from the date of first use.

Please note that this coverage is for warranty work performed at an authorized Toyota dealer only.

This Warranty Enhancement Program is limited to your specific vehicle whose Vehicle Identification Number (VIN) is printed below and is subject to the same terms and conditions set forth in the New Vehicle Limited Warranty Section of your Owner’s Warranty & Maintenance Guide. For example, damage from abuse, an accident, theft and/or vandalism is not covered by the New Vehicle Limited Warranty or this warranty enhancement.

*Please see your Toyota dealer for additional details

VIN #:

Date of First Use:

If you would like to update your vehicle ownership or contact information, please go to www.Toyota.com/#login. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

If you have previously paid for repairs related to the Intelligent Power Module (IPM), please mail a copy of your repair order, proof-of-payment, and proof-of-ownership to the following address for reimbursement consideration:

Toyota Motor Sales, U.S.A., Inc.
Toyota Customer Experience WC10
19001 South Western Avenue
Torrance, CA 90509

Include your name, address, and telephone number(s) in your request. Please allow us 6–8 weeks to process your request.

Please refer to the attached Reimbursement Checklist for required documentation details.

We have sent this notice in the interest of your continued satisfaction with our products.

Sincerely,
Toyota Motor Sales, U.S.A., Inc.
