

Component Amp Connector Analysis

|                           | Connector | Number | Wire Color  |
|---------------------------|-----------|--------|-------------|
| Battery Power (Constant)+ | L32 (C)   | 1      | Red         |
| Battery Power (Constant)+ | L32 (C)   | 5      | Black!!!    |
| Accessory + (turn on)     | L31 (B)   | 12     | Grey        |
| Left Front Squawker +     | L30 (A)   | 2      | Pink        |
| Left Front Squawker -     | L30 (A)   | 1      | Violet      |
| Left Front Woofer +       | L32 (C)   | 8      | Pink        |
| Left Front Woofer -       | L32 (C)   | 7      | Violet      |
| Right Front Squawker +    | L30 (A)   | 9      | Light Green |
| Right Front Squawker -    | L30 (A)   | 3      | Blue        |
| Right Front Woofer +      | L32 (C)   | 2      | Light Green |
| Right Front Woofer -      | L32 (C)   | 6      | Blue        |
| Left Rear Squawker +      | L30 (A)   | 5      | Black       |
| Left Rear Squawker -      | L30 (A)   | 12     | Yellow      |
| Left Rear Woofer +        | L32 (C)   | 3      | Black       |
| Left Rear Woofer -        | L32 (C)   | 9      | Yellow      |
| Right Rear Squawker +     | L30 (A)   | 4      | Red         |
| Right Rear Squawker -     | L30 (A)   | 10     | White       |
| Right Rear Woofer +       | L32 (C)   | 10     | Red         |
| Right Rear Woofer -       | L32 (C)   | 4      | White       |
| IN Right +                | L31 (B)   | 5      | Green       |
| IN Right -                | L31 (B)   | 4      | Black       |
| IN Left +                 | L31 (B)   | 3      | Red         |
| IN Left -                 | L31 (B)   | 2      | White       |
