### Repair Procedure

1. Use Techstream to check for DTCs, and confirm the condition per the Introduction.

**NOTE**

- This bulletin is **ONLY** applicable if the condition occurs during EGR operation while driving. If the symptoms are different, this bulletin does **NOT** apply, proceed with normal misfire diagnostics.
- During a road test the EGR can be disabled by disconnecting the EGR connector to verify the condition.

2. Remove and replace the Intake Manifold Assembly.

Refer to the Technical Information System (TIS), applicable model and year Repair Manual:
