

Material Safety Data Sheet

Revision Date: 27-Mar-2012

Revision Number: 1

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Product Code: Recommended use Aisin Automatic Transmission Fluid Type WS, 12 x 1 Quart ATF-0WS Automotive Lubricant

Contact Company

AISIN World Corp. of America 24330 Garnier Street Torrance, CA 90505 Telephone: (800) 822-2726 Fax: (310) 539-9035

Emergency Telephone Number

Chemtrec 1-800-424-9300

2. HAZARDS IDENTIFICATION

	CAUTION! Emergency Overview Vapors may be irritating to eyes, nose, throat, and lungs	
Appearance Clear Red	Physical State: Liquid	Odor: Mild
Mexico - Grade	Slight risk, Grade 1	
Potential Health Effects		
Principle Routes of Exposure	Skin, Eye	
Acute Effects Eyes	Mild eye irritation.	
Skin	Mild skin irritation.	
Inhalation	Contains a petroleum-based mineral oil. May cause respiratory irri effects following prolonged or repeated inhalation of oil mist at airk recommended mineral oil mist exposure limit. Symptoms of respir coughing and difficulty breathing	porne levels above the
Ingestion	May be harmful if swallowed	

Chronic Effects	This product contains a petroleum-based mineral oil. Prolonged or repeated skin contact can cause mild irritation and inflammation characterized by drying, cracking, (dermatitis) or oil acne. Repeated or prolonged inhalation of petroleum-based mineral oil mists at concentrations above applicable workplace exposure levels can cause respiratory irritation or other pulmonary effects

See Section 11 for additional Toxicological information.

Potential Environmental Effects See Section 12 for additional Ecological information.

3. COMPOSITION/INFORMATION ON INGREDIENTS

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

4. FIRST AID MEASURES				
General Advice	If symptoms persist, call a physician. Show this safety data sheet to the doctor in attendance.			
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.			
Skin contact	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.			
Inhalation	Move to fresh air in case of accidental inhalation of vapours or decomposition products. If symptoms persist, call a physician.			
Ingestion	Do not induce vomiting without medical advice. Call a physician or Poison Control Center immediately. Never give anything by mouth to an unconscious person.			
Protection of First-aiders	Use personal protective equipment. Avoid contact with skin, eyes and clothing.			
	5. FIRE-FIGHTING MEASURES			

Flammable Properties	NFPA: Class IIIB Combustible Liquid
Suitable Extinguishing Media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Hazardous combustion products	Carbon oxides, Nitrogen oxides (NOx), Sulphur oxides, oxides of phosphorus.

Specific Hazards Arising from the Chemical

Keep product and empty container away from heat and sources of ignition.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Engineering measures

Ensure adequate ventilation, especially in confined areas.

Personal Protective Equipment Eye/face Protection

Safety glasses with side-shields.

Skin Protection

Wear protective gloves/clothing. Glove Type: Neoprene, Nitriles

Respiratory protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
General Hygiene Considerations	When using, do not eat, drink or smoke. Clean equipment, work area and clothing regularly Handle in accordance with good industrial hygiene and safety practices

11. TOXICOLOGICAL INFORMATION

Acute Toxicity

LD50 Oral: LD50 Dermal: > 7000 mg/kg > 4000 mg/kg

Chronic Toxicity

Carcinogenicity:

The petroleum base oils contained in this product have been highly refined by a variety of processes including solvent extraction, hydrotreating, and dewaxing to remove aromatics and improve performance characteristics. All of the oils meet the IP-346 criteria of less than 3 percent PAH's and therefore none are listed as a carcinogen by NTP, IARC, or OSHA

12. ECOLOGICAL INFORMATION

Ecotoxicity

12. ECOLOGICAL INFORMATION

Plants and animals may experience harmful or fatal effects when coated with petroleum products. Petroleum-based (mineral) lubricating oils normally will float on water. In stagnant or slow-flowing waterways, an oil layer can cover a large surface area. As a result, this oil layer might limit or eliminate natural atmospheric oxygen transport into the water. With time, if not removed, oxygen depletion in the waterway may be sufficient to cause a fish kill or create an anaerobic environment.

This material contains phosphorus which is a controlled element for disposal in effluent waters in most sections of North America. Phosphorus is known to enhance the formation of algae. Severe algae growth can reduce oxygen content in the water possibly below levels necessary to support marine life.

13. DISPOSAL CONSIDERATIONS

Hazard characteristic and regulatory waste stream classification can change with product use. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for spent materials and residues at the time of disposition.

Waste Disposal Method	This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.
Contaminated Packaging	Dispose of in accordance with local regulations.
