                                        Pass Fail
Comments:
  There are no unusual vibrations.
  Steering is straight and does not pull to either side.
  The windows, stereo, electric seats, mirrors etc all work correctly.
  The engine appears to be idling at the appropriate rpm.
  The window washers are in good working order.
  The i-stop is working correctly.
  There is nothing obstructing the wheels from rotating fully.
```

Liability Waiver Pre purchase inspections booked via the My Auto Shop website, completed by My Auto Shop Technicians or one of our Garage Partners, represent a brief visual overview of the vehicle, and: • only take into account the visible condition and the operation of the vehicle at the time of the inspection;

• will not identify intermittent faults, faults that occur at high speeds, or faults that have been hidden for any reason; • cover the vehicle's engine bay (but not the detailed operation of the engine or transmission through the full operating temperature range), wheels & tyres, brakes, exterior and interior, underbody, and a road test (if possible) as outlined on the website. It does not include internal inspection of parts;

• includes only the steps outlined on the Pre-Purchase Inspection checklist; • represents the professional opinion of the inspector representing the Partner Garage; • does not represent a certificate of roadworthiness, nor a Warrant of Fitness; • is not a substitute for a vehicle history check;

• does not represent a recommendation by My Auto Shop to purchase the vehicle. My Auto Shop, or our Partner Garages, provide no guarantee that a pre-purchase inspection will identify every fault or defect with the vehicle, and will not be held liable for any subsequent issues, repairs, incidents or costs incurred with the vehicle that may arise post inspection.

Please see our full Terms and Conditions here.
