

## Vehicle information

Toyota Prius

Diagnostics time: 2025/04/26 20:13

Path: Automatic selection &gt; Europe &gt; w/ Smart Key &gt; Diagnosis &gt; Auto scan &gt;

## Status report

System name	DTC counts	Status
Engine and ect	3	Fault
Transmission control	2	Fault
ABS/VSC/TRC	0	Pass
SRS airbag	0	Pass
Hybrid control	0	Pass
Hv battery	0	Pass
Cruise control	0	Pass
EMPS	0	Pass
Air conditioner	1	Fault
Immobiliser	0	Pass
Body	0	Pass
Gateway	0	Pass
Entry&start	0	Pass
Power source control	0	Pass

## 1. Engine and ect —— ( 3 )

1.1. P0420	Catalyst system efficiency below threshold (bank 1) Current
1.2. P0420	Catalyst system efficiency below threshold (bank 1) Pending
1.3. P0420	Catalyst system efficiency below threshold (bank 1)

History

**2. Transmission control —— ( 2 )**

- |            |  |
|------------|--|
| 2.1. C2300 | Actuator system malfunction                  |
|            | Current                                      |
| 2.2. C2318 | Low voltage error (power supply malfunction) |
|            | Current                                      |

**3. Air conditioner —— ( 1 )**

- |            |                                       |
|------------|---------------------------------------|
| 3.1. B1421 | Solar sensor circuit (passenger side) |
|            | Current                               |
